

# FLOOR GUARD

T: 2mm x W: 1200mm x L:20m Rolls

IMPACT-A Floor Guard - Super Tough Floor Protection Sheet is a composite protection medium manufactured from a closed cell, cross linked foam which has one face thermally fused to a strong Polyfabric weave which is tough and durable.

This material is free from any heavy metals, plasticisers and CFC's.

## Key Features

- Will not decay or rot out
- Has excellent chemical resistance
- Has a high abrasion and tear resistance
- Has high water resistance and can be used as a water barrier
- Easy to cut and shapes well through folds (wall protection for example)
- Fast and simple to install
- It's lightweight for ease of transportation and handling
- Impact-A Super Tough Floor Protection Sheet is reusable.

## Can Be Used On

- Polished granite and marble
- Various types and varieties of tiled surfaces
- Carpets – new and old
- Timber flooring
- Kitchen and bathroom benchtops
- Waterproofing membranes (as a protective sheet)
- Polished concrete floors and freshly laid concrete surfaces
- Plus many more
